THE ISLAND OF TAHITI

"The Queen of the Pacific"

Tahiti, the largest of the Polynesian islands, is the heart and soul of French Polynesia. Geographically, the island is divided into two parts: the larger portion to the northwest is known as Tahiti Nui, while the smaller, southeastern peninsula is known as Tahiti Iti.

As the gateway to French Polynesia, the capital city of Papeete is home to the Faa'a International Airport and serves as the economic center offering a number of riches including museums, night life and many cultural activities. The colorful outdoor market is the perfect place to find locally grown produce, artisan crafts, souvenirs and more.

Beyond the city atmosphere, Tahiti is also a scenic island with lush landscapes and large abounding waterfalls. Outdoor pursuits on land include exploring the interior peaks and valleys on a guided hike, ATV or Jeep Safari tour, visiting restored archeological sites, hiking and golf at the Olivier Bréaud Golf Course, one of only two courses in the region. Pleasant beaches allow for scuba diving, snorkeling, jet skiing, canoeing and surfing. The famed Teahupo'o, site of the annual Billabong Pro Tahiti tournament, is a must see attraction for experienced surfers or spectators of the sport.

The unique juxtaposition of lush valleys, turquoise lagoon and the city center make Tahiti one of the most diverse islands in French Polynesia.

MANAVA SUITE RESORT TAHITI

With state-of-the-art technology and in-suite kitchen quarters, each room offers a luxurious, well-appointed home base for guests of all kinds, from business travelers visiting for extended time to leisure travelers in route to the outer islands.

The resort encompasses five separate buildings. The first houses the reception area, restaurant, bar, meeting rooms and 12 guest rooms. The other four house 108 guest rooms, boasting a total of 120 accommodations consisting of suites, studios, multi-bedroom duplexes and standard rooms.

SOCIAL RESPONSIBILITY

The resort is committed to the greater good of Tahiti and French Polynesia as a whole. As such, Manava Suite Resort Tahiti participates in programs with the goal of creating coral nurseries and raising awareness of the threats to the island's environment and lagoon.

Creation of a Coral Nursery

Coral reefs are among the most fragile ecosystems in the world. Today, 60% of them are under threat due to pollution, mass tourism, global warming and fishing. As such, Manava Suite Resort Tahiti created a protected coral nursery with the goal of preserving the lagoon by creating a healthy environment in which flora and fauna can thrive.

The First Sea Village in Tahiti

Manava Suite Resort Tahiti is a proud supporter of the *Pae Pae No Te Ora* association to raise awareness of the local environment and lagoon surrounding Tahiti. Awarded a Human Rights medal, the goal of the association is to decrease the human footprint by promoting the treasures of the lagoon's heritage and coral ecosystem to the local population. Studies consist of annual species census, collection of waste and toxic seaweed and the creation of a coastal footbath on the western side of the island.

A serene sunset scene over a body of water. The sun is low on the horizon, creating a warm, golden glow that reflects on the water's surface. Silhouetted trees with dense foliage frame the top and left sides of the image. In the foreground, a wooden pier or dock extends into the water, with a person sitting on its edge. Several lounge chairs are visible on the pier. The overall atmosphere is peaceful and tropical.
